

WE ARE OPEN!

COVID-19 | Implementation of CDC Guidelines

We sincerely hope that you and yours are staying safe during this time. We want to assure you of the measures we have made to minimize any risk to customers and employees. Cross Pest Control is adhering to the CDC guidelines as well as any given by the state and counties we service.

We have implemented the following:

- When your technician arrives, they will knock on the door and step back 6 feet before you open it. They will continue to maintain a safe distance while servicing your home.
- Your technician will wear a face mask, gloves, and shoe covers for any inside services provided.
- Cross Pest Control is always offering to treat only the exterior of your home if you prefer your technician does not enter your home. Our exterior products will prevent pests from entering with the same level of service and warranty.

Currently serving East Hillsborough, Southwest Pasco, Polk, Manatee, and Sarasota counties only.

We are here for you!
